

22.07.2020

To whom it may concern,

BKM (Beşiktaş Kültür Merkezi), is a well established television, theater and film production company with decades of experience in the game. Our company brings world-wide known artists to Turkey to perform in various events. Yudum Naz Arslan joined our team in BKM as an intern from July 3, 2018 to July 11, 2018. She contributed her hard work for the preparations of Shakira's concert taking place in Istanbul, Turkey. During this time, Yudum has shown extraordinary leadership skills with her hard work and dedication for her tasks. She has been placed in several departments that include hospitality and guest experiences. In addition, Yudum assisted a group of handicapped elders who needed special care that took place during the concert and made sure that everything went well. Yudum has a good command of Turkish, English, and conversational Spanish and was able to communicate very well with her colleagues and our guests from the USA and Columbia. This was a merit for her as our company needs a strong communication bond with our customers. Her quick adaptation in the work field and success in a short amount of time leads us to believe that she would solve any obstacle in her way easily in the future. Yudum is a quick learner and was able to get the hang of everything by asking questions and interacting with everyone. Her positive attitude, interest in work, enthusiasm, efficiency, ethical values, and excellent performance is highly appreciated. She was a great help to the people around her including her boss, colleagues, and customers. During this internship period, she has gained various compliments on her skills and professionalism.

Yours sincerely,

BEŞİKTAŞ KÜLTÜR MERKEZİ A.Ş.
